om butterfly accessories for the goddess by joan uemura shure

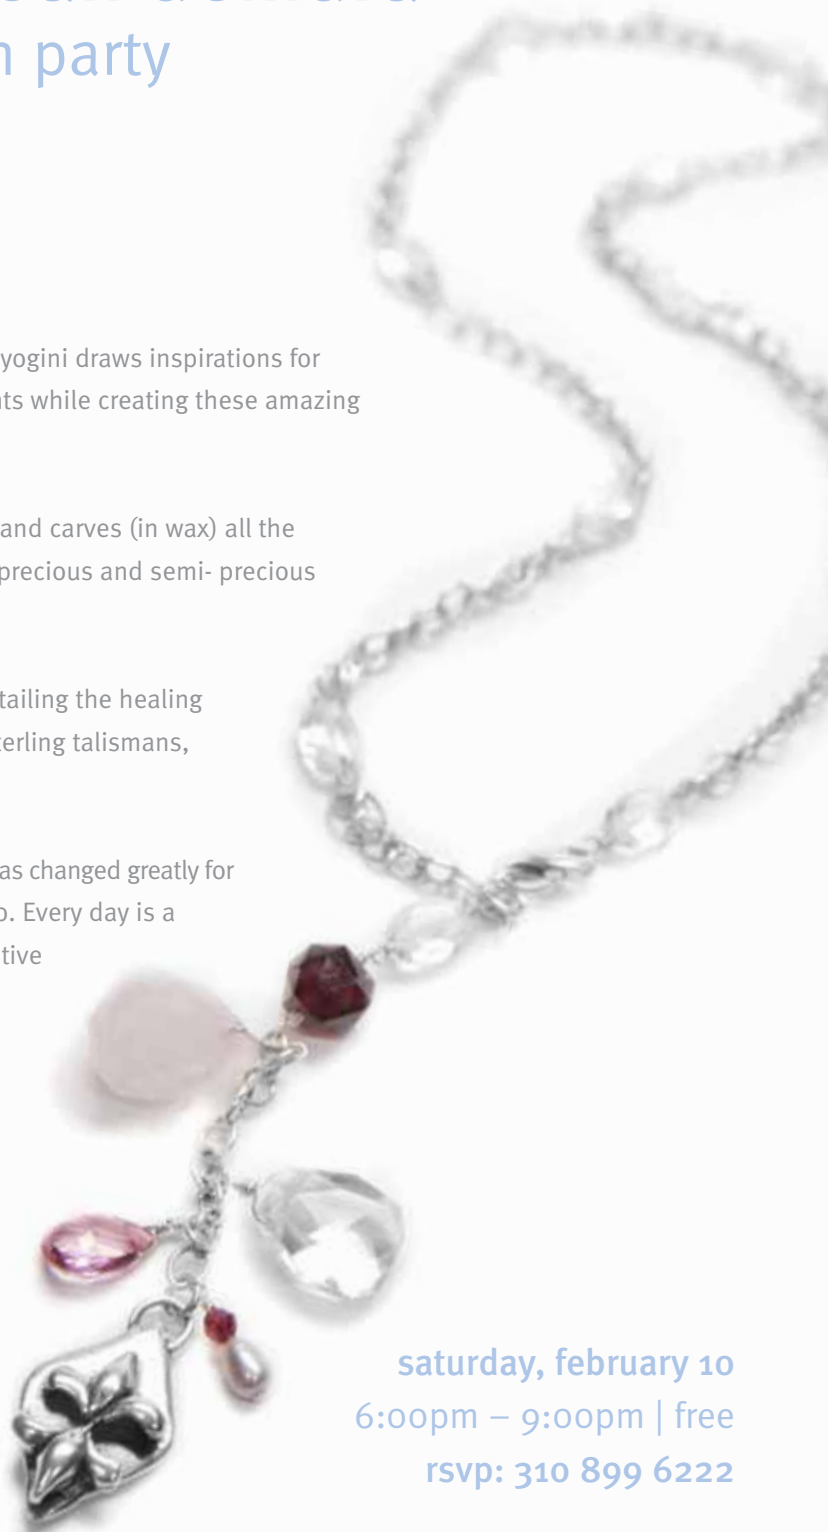

Handmade in her home studio, this West Los Angeles yogini draws inspirations for her jewelry from her dedicated yoga practice and chants while creating these amazing adornments.

Using the ancient technique of lost wax casting, she hand carves (in wax) all the sterling talismans used in her pieces. Combined with precious and semi-precious gems, the final outcome is very unique and beautiful.

Each art-treasure piece includes a description card detailing the healing properties of the gemstones, the symbolisms of the sterling talismans, inspirations, mantras, and quotes.

"I've seen amazing things happen with yoga. My life has changed greatly for the better ever since I started practicing seven years ago. Every day is a gift and my intention for om butterfly is to spread positive vibes and healing energy through my jewelry."
